

The personal information you include on this form is needed to process your application. Your name and the type, size and general location of your proposed distributed generation may be made publicly available. You have the right under the Privacy Act 1993 to access and request correction of your personal information.

Applicant Details

Name and address of applicant and owner of distributed generation:	
Details of a contact person, including name, address and telephone and facsimile numbers:	

Distributed Generation

Address of distributed generation:	
ICP number:	
Type of distributed generation (e.g. solar, wind etc):	
Rated capacity (kW):	
Does the distributed generation have an inverter and battery storage?	
Equipment allowing disconnection of distributed generation upon loss of mains voltage:	
Number of phases of distributed generation:	
Information to show that the distributed generation complies with industry standards:	<input type="checkbox"/> Attached
Information to show that the distributed generation complies with Horizon Energy's network requirements and connection and operation standards posted on our website:	<input type="checkbox"/> Attached

Does the inverter to be installed comply with AS/NZS 4777.2:2015. Please provide documentation Declaration of Conformity.	<input type="checkbox"/> Attached
Does the proposed location have any distributed generation installed previously? (Y/N): If Yes, please specify the rated capacity* (kW) and the date of installation:	
Energy Retailer for load and generation:	
Metering as per Retailer requirement (Y/N):	
Name of registered electrician installing distributed generation:	
Permanent connection (Y/N):	

*If the combined capacity of the new and existing connections are greater than 10kW, please fill the "Connection of Distributed Generation of above 10kW in Total" application form.

In addition to the information and supporting documentation specified above, this application must be accompanied by:

- (a) An application fee of \$200 + GST (Non-refundable); and
- (b) A certificate from a registered electrician or licensed electrical inspector confirming that the distributed generation complies with the Electricity Industry Participation Code 2010.

Declaration

I, _____, being the applicant referred to in this application for the connection of distributed generation with capacity of 10 kilowatts or less to Horizon Energy's distribution network, certify that the above information is true and correct.

Signed for/by the applicant:
